MEASUREMENT INFORMATION

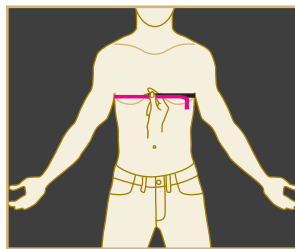

Unit of Measurement: Centimeters Inches

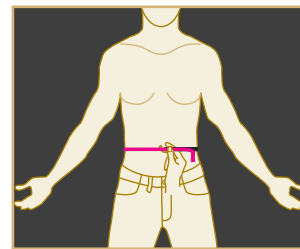

1. Neck
 Put one finger under tape and pull tape snug at the widest part of neck. Then loosen to where it feels comfortable or measurement desired

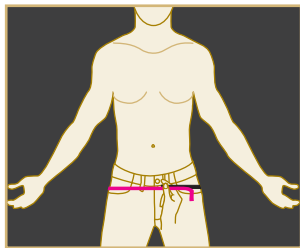

2. Yoke
 This is the most important measurement. Measure straight across the back from shoulder edge to shoulder edge over the prominent bone

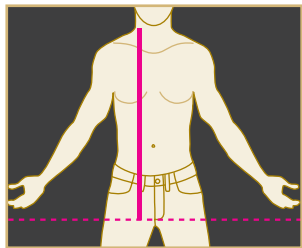

3. Chest
 Using two fingers under the tape pull tape snug around the widest point of chest. Then loosen till it feels comfortable.

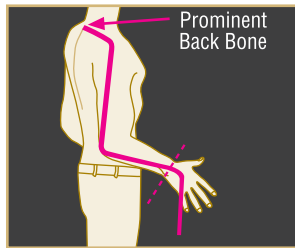

4. Waist
 Using two fingers under the tape pull tape snug around the waist. Then loosen to where it feels comfortable. Please take it over largest part of belly.

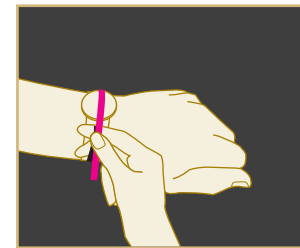

5. Hip
 Using two fingers under the tape pull tape snug around at the widest point. (Usually about 6" below the waist) Then loosen slightly and measure.

6. Shirt length
 With head straight forward, measure from the protruding point of the collarbone down to whatever length is desired.

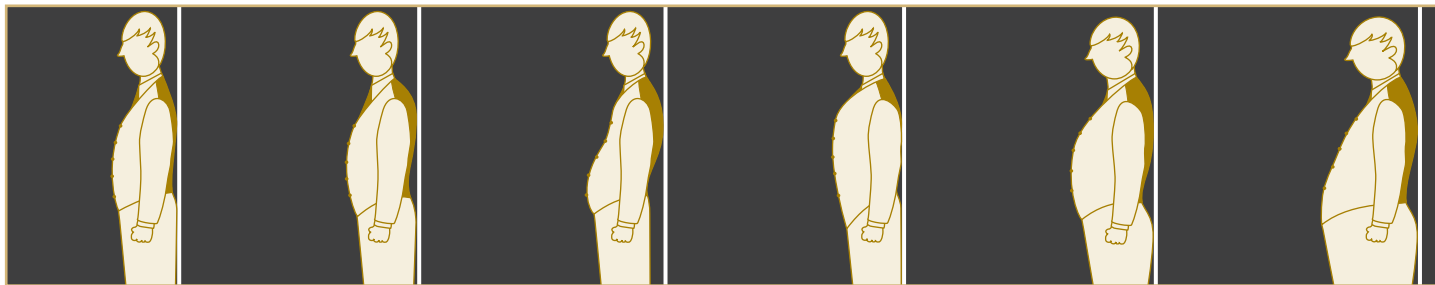

7. Sleeve length
 Bend elbow slightly, as shown, Measure from the protruding top backbone at center back, over to the end of shoulder, around elbow, to where you want the cuff to reach the wrist.

8. Wrist
 Measure around snugly. If wristwatch is worn, measure directly over the watch.
